

WHAT DO WE DO?

Express Trade Capital, Inc. provides working capital against your current assets; receivables, purchase orders, and inventory. This helps to free up cash flow without having to give up equity.

RECEIVABLE FINANCING

Draw down up to 80% of the value of your open receivables as soon as you ship, instead of having to wait for your customers to pay.

PURCHASE ORDER FINANCING

We will cover your cost of goods so you don't have to fret about large incoming orders.

INVENTORY FINANCING

Have inventory sitting in a warehouse? We'll extend a separate line of credit against finished goods inventory to free up additional capital.

HOW DOES IT WORK?
